

Dragon-Fly Photography Studio

Pregnancy Portraits \$350.00

As with all our custom portrait packages, your session begins with a personal consultation to discuss your vision for the project. In the studio for the shoot, you'll be treated to professional hair and make-up design while our talented body painter turns your belly into a gorgeous work of art. After your photoshoot, simply select your favourite five poses. We'll carefully re-touch your images and our designer will create a stunning scene to enhance the design on your belly.

Package includes:

- 1 hour professional hair and make-up
- 1 - 3 hours belly painting (dependent on the design)
- 1 hour photoshoot
- final product: DVD with 5 images

To add classic maternity photos or a newborn portrait session, please see our Pregnancy Finishing Touches page
